COMMUNICATION & COLLABORATION / PM-COM-007

Corporate Communication Planning

COURSE OVERVIEW

This programme develops a working approach to corporate communication planning in the context of messages, relationships and collaborative decisions. Participants move from understanding the main concepts to examining a case, testing alternatives and explaining a practical recommendation. The three modules focus on audiences, messages and channel planning. Examples are selected after the training brief so that they reflect the responsibilities and experience of the participant group.

LEARNING OBJECTIVES

1. Explain the role of audiences and identify the information required for a reliable assessment.
2. Use a structured worksheet to examine messages and compare reasonable alternatives.
3. Identify assumptions, missing evidence and implementation concerns related to channel planning.
4. Prepare a communication brief, role-play and feedback record for discussion with a professional team.
5. Translate the exercise into a workplace action plan with owners, review points and measurable progress.
