ENERGY & COMMERCIAL / PM-ENE-001

Physical Crude Oil Trading

COURSE OVERVIEW

This programme develops a working approach to physical crude oil trading in the context of commercial energy decisions. Participants move from understanding the main concepts to examining a case, testing alternatives and explaining a practical recommendation. The three modules focus on trade lifecycle, pricing terms and delivery risks. Examples are selected after the training brief so that they reflect the responsibilities and experience of the participant group.

LEARNING OBJECTIVES

1. Explain the role of trade lifecycle and identify the information required for a reliable assessment.
2. Use a structured worksheet to examine pricing terms and compare reasonable alternatives.
3. Identify assumptions, missing evidence and implementation concerns related to delivery risks.
4. Prepare a comparison of price, delivered cost, value and risk for discussion with a transaction team.
5. Translate the exercise into a workplace action plan with owners, review points and measurable progress.

WHO BENEFITS

Crude traders and trading operations staff: apply trade lifecycle to their responsibilities through a guided case and a course-specific worksheet. Crude procurement and supply professionals: apply pricing terms to their responsibilities through a guided case and a course-specific worksheet. Commercial risk and contract coordinators: apply delivery risks to their responsibilities through a guided case and a course-specific worksheet.

DELIVERY AT A GLANCE

Indicative format: three learning days, one module per day. In-house and live online options. English or Arabic delivery is subject to a suitably qualified instructor. Shorter executive sessions may be scoped separately. Fees are quoted after the brief.

PRACTICAL LEARNING PLAN

Day 1: Trade lifecycle

Map a current situation involving trade lifecycle; separate facts from assumptions and identify questions that need clarification.

Method: short concept discussion, guided worksheet, group comparison and instructor feedback.

Day 2: Pricing terms

Compare two approaches to pricing terms; explain the expected benefits, limitations and information gaps.

Method: short concept discussion, guided worksheet, group comparison and instructor feedback.

Day 3: Delivery risks

Develop an action plan for delivery risks; assign responsibilities and agree how results should be reviewed.

Method: short concept discussion, guided worksheet, group comparison and instructor feedback.

APPLIED EXERCISE

Working as a transaction team, participants receive a fictional workplace scenario with incomplete information. They identify evidence gaps, compare alternatives and prepare a comparison of price, delivered cost, value and risk. Assessment focuses on reasoning, assumptions and a clear explanation of the proposed next step.

PARTICIPANT TAKEAWAYS

A completed case worksheet, a topic checklist and a personal workplace action plan. Materials are educational; no professional accreditation, licence or examination award is implied.

PROPOSED DELIVERY WINDOWS

These are indicative dates for expressions of interest, not confirmed events. No venue or instructor booking is represented. Each option requires a written quotation, suitable instructor, venue agreement and sufficient enrolment before confirmation. Do not make travel arrangements on the basis of this brochure.

Location / format	Start	End	Status
Muscat, Oman / In person	02 Nov 2026	04 Nov 2026	Proposed
Dubai, UAE / In person	07 Dec 2026	09 Dec 2026	Proposed
Live online / Online	11 Jan 2027	13 Jan 2027	Proposed

TAILORING THE PROGRAMME

Before delivery, agree the participant profile, priority problems, language, format, duration and expected outputs. Relevant examples can be adapted to energy and related sectors. Specialist legal, engineering, tax, certification or technical verification matters require appropriately qualified professionals under a separately agreed scope.

REQUEST AN OFFER

Share the course code, organisation, participant count, preferred delivery option and learning priorities. PetroMargin will clarify the brief before issuing a delivery proposal.
