# Delivering Organisational Change

## COURSE OVERVIEW

This programme develops a working approach to delivering organisational change in the context of management priorities and execution. Participants move from understanding the main concepts to examining a case, testing alternatives and explaining a practical recommendation. The three modules focus on stakeholder mapping, adoption barriers and progress review. Examples are selected after the training brief so that they reflect the responsibilities and experience of the participant group.

## LEARNING OBJECTIVES

1. Explain the role of stakeholder mapping and identify the information required for a reliable assessment.

2. Use a structured worksheet to examine adoption barriers and compare reasonable alternatives.

3. Identify assumptions, missing evidence and implementation concerns related to progress review.

4. Prepare a decision brief with responsibilities and performance measures for discussion with a manager and team.

5. Translate the exercise into a workplace action plan with owners, review points and measurable progress.

## WHO BENEFITS

Managers and supervisors: apply stakeholder mapping to their responsibilities through a guided case and a course-specific worksheet. Team leaders and improvement coordinators: apply adoption barriers to their responsibilities through a guided case and a course-specific worksheet. Strategy and operations professionals: apply progress review to their responsibilities through a guided case and a course-specific worksheet.

## DELIVERY AT A GLANCE

Indicative format: three learning days, one module per day. In-house and live online options. English or Arabic delivery is subject to a suitably qualified instructor. Shorter executive sessions may be scoped separately. Fees are quoted after the brief.

# PRACTICAL LEARNING PLAN

## Day 1: Stakeholder mapping

Map a current situation involving stakeholder mapping; separate facts from assumptions and identify questions that need clarification.

Method: short concept discussion, guided worksheet, group comparison and instructor feedback.

## Day 2: Adoption barriers

Compare two approaches to adoption barriers; explain the expected benefits, limitations and information gaps.

Method: short concept discussion, guided worksheet, group comparison and instructor feedback.

## Day 3: Progress review

Develop an action plan for progress review; assign responsibilities and agree how results should be reviewed.

Method: short concept discussion, guided worksheet, group comparison and instructor feedback.

## APPLIED EXERCISE

Working as a manager and team, participants receive a fictional workplace scenario with incomplete information. They identify evidence gaps, compare alternatives and prepare a decision brief with responsibilities and performance measures. Assessment focuses on reasoning, assumptions and a clear explanation of the proposed next step.

## PARTICIPANT TAKEAWAYS

A completed case worksheet, a topic checklist and a personal workplace action plan. Materials are educational; no professional accreditation, licence or examination award is implied.
