OFFICE & ADMINISTRATION / PM-OFF-002

Document and Information Control

COURSE OVERVIEW

This programme develops a working approach to document and information control in the context of administrative workflows and information quality. Participants move from understanding the main concepts to examining a case, testing alternatives and explaining a practical recommendation. The three modules focus on classification, version control and retention. Examples are selected after the training brief so that they reflect the responsibilities and experience of the participant group.

LEARNING OBJECTIVES

1. Explain the role of classification and identify the information required for a reliable assessment.
2. Use a structured worksheet to examine version control and compare reasonable alternatives.
3. Identify assumptions, missing evidence and implementation concerns related to retention.
4. Prepare a practical workflow and control checklist for discussion with an office coordination team.
5. Translate the exercise into a workplace action plan with owners, review points and measurable progress.

WHO BENEFITS

Office administrators and coordinators: apply classification to their responsibilities through a guided case and a course-specific worksheet. Executive assistants and document controllers: apply version control to their responsibilities through a guided case and a course-specific worksheet. Department support teams: apply retention to their responsibilities through a guided case and a course-specific worksheet.

DELIVERY AT A GLANCE

Indicative format: three learning days, one module per day. In-house and live online options. English or Arabic delivery is subject to a suitably qualified instructor. Shorter executive sessions may be scoped separately. Fees are quoted after the brief.

PRACTICAL LEARNING PLAN

Day 1: Classification

Map a current situation involving classification; separate facts from assumptions and identify questions that need clarification.

Method: short concept discussion, guided worksheet, group comparison and instructor feedback.

Day 2: Version control

Compare two approaches to version control; explain the expected benefits, limitations and information gaps.

Method: short concept discussion, guided worksheet, group comparison and instructor feedback.

Day 3: Retention

Develop an action plan for retention; assign responsibilities and agree how results should be reviewed.

Method: short concept discussion, guided worksheet, group comparison and instructor feedback.

APPLIED EXERCISE

Working as an office coordination team, participants receive a fictional workplace scenario with incomplete information. They identify evidence gaps, compare alternatives and prepare a practical workflow and control checklist. Assessment focuses on reasoning, assumptions and a clear explanation of the proposed next step.

PARTICIPANT TAKEAWAYS

A completed case worksheet, a topic checklist and a personal workplace action plan. Materials are educational; no professional accreditation, licence or examination award is implied.

PROPOSED DELIVERY WINDOWS
