Value-Based Sourcing

COURSE OVERVIEW

This programme develops a working approach to value-based sourcing in the context of sourcing, contract performance and delivery choices. Participants move from understanding the main concepts to examining a case, testing alternatives and explaining a practical recommendation. The three modules focus on supplier market, total cost and sourcing strategy. Examples are selected after the training brief so that they reflect the responsibilities and experience of the participant group.

LEARNING OBJECTIVES

1. Explain the role of supplier market and identify the information required for a reliable assessment.

2. Use a structured worksheet to examine total cost and compare reasonable alternatives.

3. Identify assumptions, missing evidence and implementation concerns related to sourcing strategy.

4. Prepare an option comparison with cost, service and exposure considerations for discussion with a supply-chain team.

5. Translate the exercise into a workplace action plan with owners, review points and measurable progress.

WHO BENEFITS

Buyers and sourcing professionals: apply supplier market to their responsibilities through a guided case and a course-specific worksheet. Contract and supply-chain coordinators: apply total cost to their responsibilities through a guided case and a course-specific worksheet. Operations and logistics planners: apply sourcing strategy to their responsibilities through a guided case and a course-specific worksheet.

DELIVERY AT A GLANCE

Indicative format: three learning days, one module per day. In-house and live online options. English or Arabic delivery is subject to a suitably qualified instructor. Shorter executive sessions may be scoped separately. Fees are quoted after the brief.

PRACTICAL LEARNING PLAN

Day 1: Supplier market

Map a current situation involving supplier market; separate facts from assumptions and identify questions that need clarification.

Method: short concept discussion, guided worksheet, group comparison and instructor feedback.

Day 2: Total cost

Compare two approaches to total cost; explain the expected benefits, limitations and information gaps.

Method: short concept discussion, guided worksheet, group comparison and instructor feedback.

Day 3: Sourcing strategy

Develop an action plan for sourcing strategy; assign responsibilities and agree how results should be reviewed.

Method: short concept discussion, guided worksheet, group comparison and instructor feedback.

APPLIED EXERCISE

Working as a supply-chain team, participants receive a fictional workplace scenario with incomplete information. They identify evidence gaps, compare alternatives and prepare an option comparison with cost, service and exposure considerations. Assessment focuses on reasoning, assumptions and a clear explanation of the proposed next step.

PARTICIPANT TAKEAWAYS

A completed case worksheet, a topic checklist and a personal workplace action plan. Materials are educational; no professional accreditation, licence or examination award is implied.

PROPOSED DELIVERY WINDOWS

These are indicative dates for expressions of interest, not confirmed events. No venue or instructor booking is represented. Each option requires a written quotation, suitable instructor, venue agreement and sufficient enrolment before confirmation. Do not make travel arrangements on the basis of this brochure.
